1 **Note:** Nebraska, Oklahoma and Wisconsin received federal Lifespan Respite grants in FY 2010 to enhance their efforts. Ongoing changes are being been made to program organization and implementation as a result.

2 **Note:** Despite the fact that the Oregon Lifespan Respite Program was unfunded by the state in 2010 because of serious state budget constraints, the OR Program is included in this table because it still serves as a unique model for Lifespan Respite coordination that successfully demonstrated improved access to respite for over 14 years.
