

Providing and Receiving Respite Care Safely During the COVID-19 Pandemic

Amendments to the Guidelines

Amendment 1

Date: August 10, 2020

Page: 10

Original Text:

- [Public health experts](#) highly recommend but do not require people wear face coverings outside of certain employment spaces. Health conditions, past traumatic experiences, and fear of racial profiling or discrimination may be some of the reasons people aren't able to wear a cloth face covering.

Changed to:

- Many public health departments have issued orders that require people wear face coverings in public and certain employment spaces; however, [public health experts](#) also recognize that certain health conditions, past traumatic experiences, and fear of racial profiling or discrimination may be some of the reasons people aren't able to wear a cloth face covering.
