Increase in Caregiver Access to Respite

In an interview or focus group format, ask each key leader or stakeholder, **"**Have you documented an increase in caregiver access to respite that can be attributed to LR grantee efforts?"

The comments section should be answers to follow-up questions:

If the answer is *Yes*, ask: What features of the Lifespan Respite program do you think contributed to the increase in access to respite?

If the answer is *No*, ask: Do you have suggestions as to how the Lifespan Respite program can be strengthened so more caregivers can access respite?

If the answer is *Uncertain*, ask if they are able to venture a guess and explain why they guessed as they did.

Key leaders and respite stakeholders (add names as needed)	**Yes**	**No**	**Uncertain**	**Do not track**	**Comments**
