

## Respite is a break for family caregivers:

parents, spouses, siblings, grandparents, adult children & even teenagers - anyone who provides care 24 hours a day for someone with special needs.

**Of all the things faith communities are asked to do, why consider respite?**

- ◆ Respite is the need most frequently identified by family caregivers of all ages.
- ◆ Family caregivers of all ages prefer family members to provide respite; but with families living apart, your members are often the closest thing to extended family. Think of military families!

... is the only state wide non-profit organization working with and for families **ACROSS THE LIFESPAN** to increase awareness of the need for respite. The goal is to expand quality respite services for family caregivers of all ages in S.C.

We help families find respite resources in their community and work with organizations across S.C. to create an easily accessed respite system.

Funding is from Lifespan Respite grants, Alzheimer's Resource Coordination Center and other grants, the Carolinas Center for Medical Excellence, and **donations from people like you.**
