AnnMarie's family lives in a single family home. Her dad works many hours managing a bowling alley. Her mom's health issues began several years ago subsequent to an automobile accident caused by a drunk driver. She has struggled with her physical independence, mobility and inability to drive. In addition, AnnMarie's sister has an autoimmune disease which has required supportive care.

AnnMarie graduated on time from Santaluces High on May 20, 2013 where she was in the culinary program! Her relationship with her mom has strengthened. Mom is now more mobile and has started an Avon business from home. Bowling has become a family sport. We are very optimistic for AnnMarie's future and look forward to her staying in touch!
