Free Respite Provider Training

Alabama Lifespan Respite is excited to offer a free basic respite provider training opportunity online through CareAcademy for unskilled, in-home respite providers to be better prepared to deliver planned and emergency respite services to the families they serve.

Alabama Lifespan Respite is offering eight (8) hours of free basic care provider training online for up to 25 individuals per month, which includes the opportunity to earn class completion certificates.

About CareAcademy

Mobile-friendly classes, designed by industry experts and offered through an easy-to-use video training platform, are available with Closed Captioning in English and Spanish.

Participants can use earned certificates to reassure caregivers and care recipients that they have completed training and are ready to provide quality care.

Classes begin on the first day of each month and end on the last day of each month. Participants have up to 31 days to complete classes at their own pace.
