

Is Giving Care Taking Over Your Life?

Respite Rx Program

How Do You Get A Break When Someone Depends On You For Care?

Caregivers are assisted in developing a respite usage plan that will give them a regular “dosage” of respite, based on their own preferences for respite delivery.

Self-Directed Vouchers put control in your hands:

- Hire Own Workers
- Payments Covered
- Schedule Flexible
- Regular Breaks to do what you want!

All caregivers statewide are eligible, unless receiving voucher respite services through another program.

Put the Joy of Caring Back in Your Caregiving!

Those living in difficult-to-serve rural Nevada or those caring for individuals age 18-59 are encouraged to apply!

The Self-Directed Voucher Program is a pilot program only. Participants will experience a new way to receive necessary & needed respite services wherever they live in Nevada.
