**Breakout Room Questions for March 4, 2025**

**Topic for small group networking discussions:**

***Meeting the future head on!***

Building, enhancing, or remodeling a robust coordinated system of respite care services to support caregivers throughout the lifespan means first identifying gaps, and then taking action to fill the gaps.

- 1) Where are your gaps?
- 2) What actions are you taking to fill the gaps?
- 3) We'd like to organize roundtable discussions at the in-person Lifespan Respite Learning Symposium in Huntsville by grouping states with similar goals for implementing your Lifespan Respite care grant and for building or enhancing coordinated systems of care. Can you name at least one major goal you have for your grant (please be as detailed as possible)?
- 4) You heard about new respite and related grant and coalition activities from your colleagues earlier. Did you hear any you would like to learn more about?
- 5) What are the training or technical assistance issues that ARCH or your colleagues in other states might be able to help with?
